Business benefits

We are the leading provider of specialist agricultural Loss Adjusting services in the UK. Our comprehensive understanding of the agricultural insurance market is underpinned by an unrivalled technical knowledge of the farming, rural business and affinity industries. We also have the in-depth appreciation of estate management and inter-party relationships that this area requires. Key to our involvement are the underwriting insights and client feedback we have gathered over our years of service to the agricultural and insurance sectors. Our full UK coverage helps us to deliver a high level of client satisfaction through our local presence.

Case studies

Quick response over Christmas meant pig losses were cut in the New Year

Farm fires can be traumatic particularly when they involve the loss of livestock. Following notification of a fire on Christmas Eve, our adjusters attended a high health status pig farm where a farrowing house had suffered severe damage. Sadly a number of breeding sows died together with their progeny. Experience in dealing with incidents of this nature enabled our adjusters to understand the impact of the incident on both the Policyholder's ability to operate and the longer term performance of the closed herd. We initiated post loss assistance in sourcing replacement temporary

structures to minimise the short-term impacts to the business. Detailed discussions coupled with retained specialist advice, facilitated negotiations which led to the agreement of appropriate strategies with the Policyholder to minimise the impact of the loss of breeding animals.

Our proactive interventions on the claim resulted in six figure savings for the insurers and helped the insured's business return to optimum production in the shortest possible time.
