

Agriculture

## Our expertise

**Our agriculture team has the experience to provision claims management services to the agri-business insurance sector.** Our agriculture team brings a wealth of experience to the farm, rural business, bloodstock/livestock, industry. Originally based in the UK through our acquisition of Agrical in 2013, the division has rebranded to McLarens Agriculture and expanded to the US and beyond.

### Areas of specialty include:

- Liability: Public & Product
- Revenue/Business Interruption
- Buildings: Farm & Private
- Contracting Risk
- Arable, Dairy, Livestock, Poultry
- Machinery/Motor
- Land Diversification
- Equine & Bloodstock

### Business benefits

Our comprehensive understanding of the agricultural insurance market is underpinned by an unrivalled technical knowledge of the farming, rural business and affinity industries. We also have the in-depth appreciation of estate management and inter-party relationships that this area requires. Key to our involvement are the underwriting insights and client feedback we have gathered over our years of service to the agricultural and insurance sectors.

### Services at your disposal

We offer a range of farm, estates and rural business services including:

- Forensic accounting
- Large and complex loss
- Public and product liability
- Revenue / BI
- Contracting risks

### Quality is at the heart of McLarens.

### Case study

#### **Fast response over the holidays results in minimised pig losses**

##### SITUATION

Farm fires can be traumatic particularly when they involve the loss of livestock. Following notification of a fire on Christmas Eve, our adjusters attended a high health status pig farm where a farrowing house had suffered severe damage.

##### SCENARIO

Sadly a number of breeding sows died together with their progeny. Experience in dealing with incidents of this nature enabled our adjusters to understand the impact of the incident on both the Policyholder's ability to operate and the longer term performance of the closed herd. We initiated post-loss assistance in sourcing replacement temporary structures to minimise the short-term impacts to the business. Detailed discussions coupled with retained specialist advice facilitated negotiations, which led to the agreement of appropriate strategies with the Policyholder to minimise the impact of the loss of breeding animals.

##### OUTCOME

Our proactive interventions on the claim resulted in six figure savings for the insurers and helped the insured's business return to optimum production in the shortest possible time.
