McLarens Aviation
Global Reach

Overview & History

Quality is at the heart of McLarens. McLarens Aviation, the aviation division of the global claims services provider McLarens, is the world's leading provider of aviation loss adjusting services.

First established in 1964 as Airclaims, the firm merged in 2011 with McLarens. In 2014 it rebranded to McLarens Aviation, completing its integration into the McLarens group. With more than 50 years of experience serving the aviation and insurance industries, McLarens Aviation provides unparalleled Claims, Asset and Risk management services to the global aviation industry.

The Claims Management team handles in excess of 4,000 insurance related assignments each year. Wherever and whenever an aviation loss related event occurs, the team provides dependable support along with the highest levels of professionalism and care. The Asset Management team includes dedicated in-house Project Managers, Powerplant Managers, Technical Services, Airworthiness and Planning Engineers plus all the equipment and software necessary to manage today's complex assets and bespoke CAMO services. The Risk Management team is staffed by leading practitioners in their field who, through the analysis of accidents and incidents worldwide, have developed programs to help mitigate risk faced by companies operating in the aviation sector.

Product Lines

Claims Management - Hull & Liability
