

Natural Resources

Renewables Expertise

Renewable energy losses require specialised knowledge and management by adjusters who can effectively handle the intricacies of renewables claims. Our team of experts offer loss valuation and mitigation, relationships with other service provider partners, review of policy and contract documents, as well as proactive, detailed reporting. In addition, McLarens delivers a true partnership, taking the time to understand our clients' technical side, structure and requirements, and delivering an approach that is both flexible and innovative.

UNDERSTANDING RENEWABLES

- The need for alternative, reliable energy has become more paramount in our modern world as resources change.
- Renewable energy projects continue to grow in scale resulting in required insurance policy customisations and tailored solutions.
- The risks and subsequent losses in the sector are increasingly challenging and complex due to technological advances and rapid growth.

RENEWABLE ENERGY CLAIM TYPES

- Biomass and biofuels
- Geothermal power
- Hydroelectric
- Hydrogen & fuel cells
- Photovoltaic, thermal, and concentrated solar power
- Onshore & offshore wind

OUR CLIENT PARTNERS

- Developers
- Contractors
- Investors
- Manufacturers
- Underwriters

OUR QUALITY PROMISE

Quality is the cornerstone of McLarens as demonstrated by our 2016 AM Best Client Recommended Insurance Adjuster Award. McLarens' renewable energy solutions offer a unique opportunity for our Natural Resources team to demonstrate its deep understanding of complex claims in this highly specialised sector. When partnering with the McLarens Renewables team, we customise a program and deliverables to meet your specific needs. We provide:

- **Qualified and Credentialed Staff**, with 25 years' average industry experience
- **Diverse Staff Experience Levels:** Executive General Adjusters, National General Adjusters, Regional General Adjusters, General Adjusters and Adjusters
- **Dedicated Account Teams:** Executive Sponsor / Support, Account Manager, Senior EGA or Lead
- **Established Vendor Partners:** Accounting, Engineering, Construction, Mitigation, Restoration, etc. (if needed)
