BIOGRAPHY

Nigel's has a mechanical engineering background, having worked at British Steel in the UK, the American Bureau of Shipping plus a state-owned Oil & Gas Company in the Middle East.

In 2004, Nigel began his adjusting career with an international adjusting practice in New Zealand as the Engineering Team Leader handling a portfolio of property damage, machinery breakdown, alternative energy, CAR/EAR, liability & CAT claims. During this time Nigel completed professional insurance qualifications and gained chartered status.

In 2011, Nigel relocated to Singapore taking on a role as a regional Natural Resources adjuster dealing with high value complex claims associated with Offshore Oil & Gas sectors. In 2015 Nigel transferred to the Middle East to start a new adjusting office in Abu Dhabi. During this time, Nigel continued to undertake Natural Resources assignments as well as develop a portfolio of onshore engineering Property & Casualty work.

Nigel brings a wealth of specialist industry experience to McLarens. He is a regional adjuster based in Singapore, and can undertake assignments throughout the region, specialising in claims relating to Machinery breakdown, power generation, offshore/onshore EAR/CAR & Natural Resources.
